## **National Consortium for State Guidance Leadership Publishes A National Framework for State Programs of Guidance and Counseling**

After 2 years of work, *A National Framework for State Programs of Guidance and Counseling* and its companion publication *The State Leadership Implementation and Resource Guide*, are now ready for dissemination. These publications represent a state department of education-guidance leadership perspective coming from the Consortium members as well as many professionals representing associations, counselors, and organizations.

The National Framework presents the standards, indicators, and descriptions that make up a comprehensive program. It also blends in nicely with the NOICC Career Development Guidelines and the ASCA standards.

The companion to the framework is our Implementation and Resource Guide, a 180-page plus guide to help states and school districts upgrade their programs using the framework. This guide is intended to help state leaders develop workshops and offer support to their school districts as they develop and implement their local programs. The National Consortium can provide both publications for \$23.00, including shipping and handling.

For further information contact: Harry N. Drier  
Center on Education and Training for Employment  
1900 Kenny Road, Columbus OH 43210-1090
